

**I Could Be
Kyla La Grange**

Love Kyla La Grange. This is a really easy song, no capo, I use muted struming, and just enjoy it!!!!

AM

If you fall into my arms

G

I will keep you falling

AM

And if you break down in my doorway

G

I will sleep with you there

AM

And if you cry out in the dark

G

I will hear you calling

AM

And if you are cold and wounded

G

I will shiver at your side

AM

At your side

AM

G

Fmaj7

I could be yours if you write me a letter

AM

G

Fmaj7

I could be yours if you see me in the street

AM

G

Fmaj7

I could be sometime always or never

AM

G

Fmaj7

I could be all of the things you d ask of me

AM

You d ask of me

If you are tired and trembling

I will hold you in your bed

And if you re consumed by a red rage

I will stroke your matted head

And if you are chased by a nightmare

I will dive into your dreams

And if you are followed by old ghosts

I will watch them till they leave, till they leave

I could be yours if you write me a letter

I could be yours if you see me in the street

I could be sometime always or never

I could be all of the things you d ask of me

But how, how do I go
If your heart, won't let me know
And how, how can I be
If your eyes still let me see
And where, where can I run
If your legs still hold me up
And who, who can I be
If your hugs still help me breath

I could be yours if you write me a letter
I could be yours if you see me in the street
I could be sometime always or never
I could be all of the things you'd ask of me
You'd ask of me
