Make Me Pay
Kyla La Grange

 [Intro]
C   Em   C   Em
C   Em   C   Em

[Verse]
C   Em
You'll find me in the lake
                              C
With the death I tried to fake
                    Em
My hands already blue
                         C
Holding photographs of you
                         Em
And you'll ask me what it is
                    C
Why I want to feel like this
                         Em
And I'll turn towards the sky
                         C
And I'll sink before your eyes

[Pre-Chorus]
                 G
But if I was to ask
         Em   D
My little love, my little one
C   Em
Could you break my heart
             G   D
Could you have tried, could you have done?
            C   Em
To make me pay, make me pay,

[Chorus]
        C   Em   B   Em
Make me pay
            C   D   C   D
To make me pay, for what I don't do
         C   D   C   G   D
Make me pay, for how I loved you
           C   Em   C   Em
Make me pay, make me pay, make me pay.

```
[Verse]
C                            Em
You’ll find me in the woods
                             C
Where the dead do what they should
               Em
My arms already old
              C
My eyes forever cold
                        Em
And they’ll say I never left
                      C
That I called them as they slept
                   Em
That I haunted every tree
                       C
Til the forest sang with me

[Pre-Chorus]
               G
But if it all was true
        Em              D      C
That I went mad, because of you
             Em
Then finally you’d know
           G                 D
And you could come and take me home
      C                Em
Take me home, take me home,

[Chorus]
        C     Em    B     Em
Take me home
       C  D              C           D
Take me home, and help me love you
       C  D            C            G     D
Take me home, to where my heart moves
     C               Em            C     Em
Take me home, take me home, take me home
```
