[verse]

Everyone says man your sure lookin tired
they wonder whats going on

dont you worry I could do this forever
nothing is gonna stand in my way
oh if this dont kill me Ill be alright,
what else would I wanna do with my life

[chorus]

so well dance under the moon right beneath the stars
listen to the radio beat to our hearts
lay our heads down and let love carry us far away
darlin we could move slow, take our sweet time
there is no need to rush girl we got all night
but if anyone ask well say were takin it day by day

[2nd chorus, same chords]

we can fly to the moon, sail beyond the sea
take to trip to heaven and never leave our feet
never say a word and let our hearts carry us far away
darlin we could move slow, take our sweet time
there is no need to rush girl we got all night
but if anyone ask we ll say were takin it day by day
