

**Cover My Eyes**

**La Roux**

Cover My Eyes

La Roux

La Roux (2009)

**Ebm**                      **B**

No wonder I m scared

&#8232;                                      **C#**

To look in your eyes&#8232;

**Ebm**                      **B**

You ve turned me away

&#8232;                      **C#**

So many times&#8232;

**Ebm**                      **B**

You can take it away&#8232;

**C#**

At any given moment&#8232;

**Ebm**                      **B**

It s hard to believe&#8232;

**C#**

While you re in this disguise&#8232;

â€œ

&#8232;**B**                                      **Ebm**

So would you hold me please&#8232;

**C#**

I m trying hard to breathe&#8232;

**G#m**

I m just surviving&#8232;

**B**                                      **Ebm**

So would you hold me please&#8232;

**C#**

I m trying hard to breathe&#8232;

**G#m**

Stop me from crying&#8232;

â€œ

&#8232;**C#**                                      **B**

When I see you walking with her&#8232;

**F#**                                      **Ebm**

I have to cover my eyes&#8232;

**C#**                                      **B**

Every time you leave with her&#8232;

**F#**                                      **Ebm**

Something inside me dies&#8232;

**C#**

Something inside of me dies&#8232;

â€"

**Ebm**                    **B**  
No wonder it hurts&#8232;

**C#**  
To sit by your side &#8232;

**Ebm**                    **B**  
There s a different song&#8232;

**C#**  
I can play you tonight&#8232;

**Ebm**                    **B**  
We can break the pattern&#8232;

**C#**  
We can change the colour&#8232;

**Ebm**                    **B**  
You don t need to worry

**C#**  
About the others&#8232;

â€"&#8232;

**B**                                    **Ebm**  
So would you hold me please&#8232;

**C#**  
I m trying hard to breathe&#8232;

**G#m**  
I m just surviving&#8232;

**B**                                    **Ebm**  
So would you hold me please&#8232;

**C#**  
I m trying hard to breathe&#8232;

**G#m**  
Stop me from crying&#8232;

â€"

&#8232;**C#**                                    **B**  
When I see you walking with her&#8232;

**F#**                    **Ebm**  
I have to cover my eyes&#8232;

**C#**                                    **B**  
Every time you leave with her&#8232;

**F#**                                    **Ebm**  
Something inside me dies&#8232;

**C#**  
Something inside of me dies

(Repeat to end)
