In For The Kill
La Roux

G#m   E
We can fight our desires,
        C#
ooooo-ooooo,
                          G#m
but when we start making fires.

G#m   E
We can t have it so hot,
        C#
ooooo-ooooo,
                        G#m
whether we like it or not.

G#m   E
They say we can love who we trust,
        C#
ooooo-ooooo,
                        G#m
but what is love without lust?

G#m   E
Two hearts with accurate devotions,
        C#
ooooo-ooooo,
                            G#m
what are feelings without emotions?

CHORUS:
B   E
I m Going in for the kill,
                          E
I m doing it for a thrill,
                            F#
oh I m hoping you ll understand,
                        G#m
and now let go of my hand.

x2

Instrumental - same chords as verse

G#m   E
I hang my hopes out on the line,

```
        C#
ooooo-ooooo,
                                      G#m
will they be ready for you in time?

G#m                       E
If you leave them out too long,
        C#
ooooo-ooooo,
                            G#m
they ll be withered by this song.

G#m                       E
Full-stops and exclamation-marks,
        C#
ooooo-ooooo
                            G#m
my words stumble before I start.

G#m                       E
How far can you send emotions?
        C#
ooooo-ooooo
                            C#
Can this bridge cross the ocean?

CHORUS:
B                         E
I m Going in for the kill,
                          E
I m doing it for a thrill,
                            F#
oh I m hoping you ll understand,
                        G#m
and now let go of my hand.

x2

B                             F#
Lets call to all to make peace,
E                           G#m
Lets by cold to create ease.
B                         F#m
Open darkness we can see,
E                                   G#m
You re not blind, borrow the light from me.

Vocal solo - same chords as verse

CHORUS:
```

```
B                        E
I m Going in for the kill,
                         E
I m doing it for a thrill,
                              F#
oh I m hoping you ll understand,
                     G#m
and now let go of my hand.
