

Not Every Pain Hurts
Lacrimosa

Artist: Lacrimosa
Album: Stille
Song: Not Every Pain Hurts
Tuning: CGCFAD

These chords present accordion synth part of the song. You may strum as well, but

I prefer picking the F, C and G strings, with F being a bass string:

```
      Am      Am      E      E
D|-----|
A|---1-1---1-1---0-0---0-0--|
F|---2-2---2-2---1-1---1-1--|
C|-2-----2-----2-----2-----|
G|-----|
C|-----|
```

etc. etc. This is the closest to what you hear on the studio version.

Listen to the song for better timing.
