Life is so simple... A little boy, a little girl
F# F#/A# D#m B
Laughing and loving, tryin to figure out the world

F# F#/A#
It felt like summer, when I kissed you in the rain
D#m B
And I know your story, but tell me again

F#
Nothing you say wouldn't interest me
F#/A#
All of your words are like poems to me
D#m B
I would be honored if you would take me as I am

F# C#/F D#m
I want you... To look right in my eyes
C# B F#/A# C# C#4, C#
To tell me you love me, to be by my side

I want you... at the end of my life

I wanna see your face when I fall with grace, at the moment I die
F# F#/A# D#m B
Is that alright? Is that alright?

It's a warm celebration of all of our years

I dream of our story, of our fairy-tale

Knowin if we stay together that things will be right
