No Can Do
Ladyhawk

C#m E B F#

```
      C#m              E                  B      F#
And now I don t understand how you could be so alone
            B      E
You lift me up so high
            B            F#
Then maybe just let me go
        C#m           E            B           F#
They didn t know they d come, the harder they fall
              B       E   B       F#
Cause I m just another ad upon your wall
```

```
C#m                    G#m
No one taught me how to pray
                        B           E
I had to go and find it out the hard way
```

```
        F#         B            E
And it s wrong to think that I have those
          B      F#                C#m        E
Oh when he got the word he tried to fuck the fuck up
```

```
     C#m         E          B      F#
Oh I ve been around, just had it around
        B        E          B          F#
I let you drive me through the gates that put me down
C#m        E         B     F#
I did my best and I tried to reach up
              B              E            B        F#
Oh well I guess you did my best but you couldn t come no
```

```
C#m                    G#m
So many say no can do
                        B        E
I don t know what I could ve done to lose you
```

```
       F#         B            E
And it s wrong to think that I have those
          B    F#                C#m        E
Oh when he got the word he tried to fuck the fuck up
```

(solo)
F#
