Lana Del Rey

C#m **G#**
Take me in your fast car mercedes
F#m **G#**
Kissing on your neck while you re driving
C#m **G#**
Doesn t care I m always on my blackberry
F#m **G#**
All the time all the time buying into every line
C#m **G#**
I mma flashy little lush but he thinks I m really fine
F#m **G#**
Notorious and wild takes me where I m gonna shine
C#m **G#**
Where the bad boys roll hard dressing like james dean
F#m **G#**
And the vixen starlets feels so good to be

F#m **G#**
We re children of the bad revolution
F#m **G#**
And partying is the only solution
F#m **G#**
And I mma tell any confusion
F#m **G#**
About who we are and what we re gonna be
C#m **G#**
We gonna get free free free free
F#m **G#**

F#m **G#**
Mix it up, mix it up
C#m **G#**
Every dude you ever seen
F#m **G#**
We re acting really tough
C#m **G#**
Like the world belongs to us
F#m **G#**
Cause it does, yeah it must but we do create the buzz

C#m **G#**
Where the bad boys blow smoke just like they re james dean
F#m **G#**
And the air girls blow kisses just like marilyn

F#m **G#**
We re children of the bad revolution
F#m **G#**
And partying is the only solution
F#m **G#**
And I mma tell any confusion
F#m **G#**
About who we are and what we re gonna be
C#m **G#**
We gonna get free free free free
C#m **G#**
Free free free get free

C#m
Run for your lives
G#
They got em in chains

F#m
Let s hope that we merge
G#
Create our own games
C#m
Dj s, rockstars, posers, we are
G#
Then the politicians
F#m
That surrender the additions
G#m **G#**
And it s so pornographic and it s tragic
F#m
Nothing magic makes us free
G#
To be what we wanna be, wanna be
F#m **G#**
We re children of the bad revolution
F#m **G#**
And partying is the only solution
F#m **G#**
And I mma tell any confusion
F#m **G#**
About who we are and what we re gonna be

F#m **G#**
We re children of the bad revolution
F#m **G#**
And partying is the only solution

F#m **G#**
And I mma tell any confusion

F#m **G#**
About who we are and what we re gonna be

C#m **G#**
We gonna get free free free free

C#m **G#**
