

**Last Girl On Earth**  
**Lana Del Rey**

This is my first tab, I started playing the guitar four months ago so don't expect too much, it's not perfect but sounds good to me...

**Bm** **F#m**  
Baby has a broken heart,  
**G**  
She can't belong to only one  
**Bm**  
Until another girl is found.

**Bm** **F#m**  
I don't pay for anything,  
**G**  
My cigarettes or diamond rings,  
**Bm**  
My feet don't even touch the ground.

**G**  
Chariots of gold,  
**F#m**  
I ride with Jay-Z, Jared Leto,

**G** **F#m**  
I'm a super power, now they call me the tornado.

**G** **F#m**  
Roses in my hair, I belly dance and do the tango,

**F#maj** **Bm**  
Sometimes I get lonely, everybody told me no,

**Bm**  
No one lives forever,

**Fm**  
But that's no reason to give up,

**G** **A Bm**  
Don t you wanna fall in love?

**Bm**  
Know such thing as heaven

**F#m** **G**
