The whole song is alternating **B** â€™ **A** â€™ **B** â€™ **D** barre chords, save the end of the chorus which skips the second **B**

(Ooo) What?  
(Ooo) That s Dope  
(Ooo) What?  
(Ooo)

**B** **A**  
Love you like I never loved anyone  
**B** **D**  
Keep me burning hot like the red, red sun  
Want you like I never wanted anyone  
You give it to me fast like free and fun

Every time it s you  
It feels like I m in summer  
I don t know why  
Maybe cause you re so cool  
And keep it on the real like sugar sugar fly

Boy you re sweet like sugarcane  
Make me feel alive again

I m going down, down Take you down to paradise  
(Rock you like a real bad baby)  
La love lick you like vanilla ice  
(Tie you up and make you crazy)

Shut up, Give me what you got  
You can make my heart super sonic pow

**B** **A** **D**  
We re going down down, take you down to paradise

Want you like I never wanted anyone  
Got a face like God, And a bod like drawn  
Kiss you like I never kissed anyone

Cause you keep it really rough, Like oh my God

Every time it s you I can tell it s forever  
I don t know how  
And even if it s not, You know I couldn t stop  
You make my heart go pow

Coming down like pouring rain  
Make my feel alive again

I m going down down Take you down to paradise  
(Rock you like a real bad baby)  
La love lick you like vanilla ice  
(Tie you up and make you crazy)

Sh-sh-sh-sh-Shut up  
Give me what you got  
You can make my heart super sonic pow  
We re going down down, take you down to paradise  
Uh, how do you like that baby?

Down down, take you down to paradise  
(Down down. take you down to paradise)  
Down down, take you down to paradise

(Ooo) Dope  
(Ooo) That s sick  
(Ooo) Dope, That s sick

Shut up  
Give me what you got  
You can make my heart super sonic pow

I m going down down  
Take you down to paradise  
(Rock you like a real bad baby)  
La love lick you like vanilla ice  
(Tie you up and make you crazy)

Sh-sh-sh-sh-Shut up  
Give me what you got  
You can make my heart super sonic pow  
We re going down down, take you down to paradise
