Cause I m wild, wild at heart

```
Like if you heard I was out in the bars drinking jack and coke
Goin crazy for anyone who would listen to my stories, babe?
Time after time, I think about leaving
             F#m
But you know that I never do, just cause you keep me believing
I love you lots, despite the odds
      C#m
You re killing me, John
And all the thoughts brought us apart
   C#m
                F#m
And that s okay, too
 Cause even in the worst of times
                   F#m
           Ε
You saw the best of me
                     Dm
And that s why I stay here with you
I left Calabasas, escaped all the ashes
Ran into the dark
                    D
And it made me wild, wild, wild at heart
The cameras have flashes, they cause the car crashes
But I m not a star
If you love me, you ll love me
Cause I m wild, wild at heart
If they love me, they ll love me
 Cause I m wild, wild at heart
                 G
                     D
 Cause, baby, I m wild-ild at heart
If you love me, you love me
Cause I m wild at heart
```

Baby, I m wild, wild at heart

What would you do if I wouldn t sing for them no more?
