Thru These Tears LANY

[Intro] B G#m F# E

В

This hurts like hell

G#m

But I keep telling myself

F#

It s gonna get better

Ε

But it s taking forever

в

I tried to go out

G#m

But every time I leave the house

F#

Something reminds me

Ε

Of what s now behind me

C#m D#m

Everyday I let go

E F#

Just a little bit more

B G#m

In the end I m gonna be alright

F#

But it might take a hundred sleepless nights

Е

To make the memories of you disappear

В

But right now I can t see nothing through these tears

В

Control my thoughts

G#m

Convincing myself it s your loss

F#

I really mean it

Ε

And I m starting to believe it

C#m D#m

Cause everyday I let go

E F#

Just a little bit more

```
В
                          G#m
In the end I m gonna be alright
                                       F#
But it might take a hundred sleepless nights
To make the memories of you disappear
But right now I can t see nothing through these tears
Out of sight but you re not out of my mind
So it might take somebody else at night
To make it feel like you were never here
But right now I can t see nothing through these tears
    В
You said it was over
    G#m
But when we got closer
    F#
You cried on my shoulder
    Е
Goodbye
                          G#m
In the end I m gonna be alright
But it might take a hundred sleepless nights
To make the memories of you disappear
But right now I can t see nothing through these tears
Out of sight but you re not out of my mind
So it might take somebody else at night
To make it feel like you were never here
But right now I can t see nothing through these tears
Driving home on an empty highway
I thought about you and I hit the brakes
What we had and who we were was so clear
But right now I can t see nothing through these tears
```
