

## Green Pastures In The Sky

Larry Sparks

(D)The Shepherd leads me out to Green (C) pastures, Where the (D) clear (A)sweet waters (D) flow

Though evil shadows are (C) all around (D) me, I m not afraid He s (A) there I(D) ) know.

The storms may come and rage around me  
I m not alone, He is my shield  
And when I m weary, alone and forsaken  
He Lifts me up He is so real

Though I may stray in the fields that are barren  
where danger awaits me I may go  
The master will search until he finds me  
He ll guide me back into the fold

I m one of his sheep, he ll love and protect me  
When I call, He s there close by  
The day draws near for that final journey  
to that Green Pasture in the Sky
