F **G**

so much for the longest day

C

the subtle glow slowly fading

F **G**

so goes another year...

C

the seasons change

I ve seen the glow of the view

upon Alameda drive

here in my empty room

only candles glow tonight

Chorus

Am
tell me again

Em

press my hands to your lips

G

as you sing of love and life

don t leave me now

here in my darkest hour

as the longest day turns night

so when did I become this serious

and solemn one

so when does life feel like the longest day

love tends to leave you tight

you go and feel.. every moment

(verse chords extend for one more round here)

so go on call out my bluff
pretend you never won me over

Chorus

Tada tada bit -

F G Am Em F G Am Em G
