Adore

Laura Jane Grace

```
[Intro]
I m just gonna stand with my bag hanging off my left arm
I m just gonna walk home kicking stones at parked cars
But I had a great night cause you kept rubbing against my arm
I m just gonna stand with my bag hanging off my left arm \,
[Chorus]
Get me a drink I get drunk off one sip
Just so I can adore you
                                Em
I want the entire street out of town
Just so I can be alone with you
Now go when your ready my heads
Getting heavy pressed against your arm
I adore you
[Verse]
                                   Em
All off my money is spent on these nights just so we can hang out
                             Em
Spacing in and out of these dresses I wanna be found
By you, found by you
[Chorus]
Get me a drink I get drunk off one sip
Just so I can adore you
I want the entire street out of town
Just so I can be alone with you
```
