

Nothing Not Nearly

Laura Marling

Verse

**A**

I won't forget the late September  
Where we danced among the midnight embers

**Bm**

But it's going like a half-remembered dream

**A**

Left and north of where we met  
Thinking better of going west

**Bm**

Yeah we lost each other in a river stream

**D**

I thought I'd come and find you there  
Wait until you lost your hair

**Bm**

And got your place out in the woods

**D**

You're not afraid of trees or bears  
Or anything with tendencies

**Bm**

To wanna hurt you good

**A**

The only thing I learnt in a year

**Bm**

Where I didn't smile once, not really

**A**

Nothing matters more than love, no

**Bm**

Nothing, no, not nothing no, not nearly

**D**

**E**

We've not got long, you know

**A**

**D**

To bask in the afterglow

**Bm**

**E**

Once it's gone it's gone

**A**

**D**

Love waits for no one
