Verse

C   **F**
Chasing down a wild fire,

                                                    C   **F**
Are you trying to make a cold liar out of me?
C   **F**
You wanna get high,

                                                C   **F**
You ll overcome those desires before you come to me.

Dm7   **Em7/G** (**E7sus4**)

Dm7   **Em7/G** (**E7sus4**)
And your papa s kinda mean
Dm7   **Em7/G** (**E7sus4**)

Dm7   **Em7/G**
You can stop playing that shit out on me

Verse

C   F
She keeps a pen behind her ear because

                                                        C   F
she's got something she really really needs to say
C   F
She puts it in a notepad,

                                    C   F
she's gonna write a book someday

Dm7   Em7/G (E7sus4)
Of course the only part that I want to read
Dm7   Em7/G (E7sus4)
Is about her time spent with me
Dm7   Em7/G (E7sus4)

```
Wouldn t you die to know how you seem
Dm7                                          Em7/G
Are you getting away with who you re trying to be
C       F        C         F
Trying, trying to be

C       F

C                                          F                    C
    F
Of course there s things upon the earth that we must really try to defend
C                          F
A lonely beast, a kind heart,
                                    C               F
Or something weak and untrained

Dm7                            Em7/G  (E7sus4)
I d do it all for her, for free
Dm7                        Em7/G  (E7sus4)
I need nothing back for me
Dm7                                Em7/G  (E7sus4)
There ain t no sweeter deed, maybe
    Dm7                            Em7/G
Than to love something enough to wanna help it get free
C       F  (x2)
Freeeee...

Maybe someday when God takes me away
                            C           F
I ll understand what the fuck that means

Dm7                            Em7/G  (E7sus4)
I just know your mama s kinda sad
