

**Build A Little World With Me**  
**Laura Shigihara**

[Verse 1]

**Em**

Once these walls were grey

**A D**

But you made stars and skies and snowflakes

**Em**

We found a rainbow everywhere

**A D D7**

You made a place so we could hide away

[Chorus]

**G**

And if you stay right by my side

**G**

And make it through the night

**D Em G**

Then you ll never have to feel alone again

**Em**

So before it s time to leave,

**A G**

Would you build a little world with me?

Â

[Verse 2]

**Em**

Once this room was cold

**A D**

But then I asked the sun to smile again

**Em**

Our castle covered the expense

**A D D7**

With all the patches, pillows we could hold

[Chorus]

**G**

And if you stay right by my side

**G**

And make it through the night

**D Em G**

And I ll never have to feel alone again

**Em**

So before it s time to leave,

**A G**

Would you build a little world with me?

Â

[Outro]

**G**

And if you stay right by my side

**G**

And make it through the night

**D Em**

**G**

And we ll never have to feel alone again

**Em**

So before it s time to leave,

**A**

**G**

Would you build a little world with me?

**Em**

Now it s time for me to leave

**A**

**G D**

I m glad you built this little world with me
