[Bridge]

C
I don t really know what it is
                            D
Sitting on the side of the streets, calm down
    Em                      Am
So baby we can sit on the coast
Em                          Am
Never really known how to lay low
C
And maybe we can do it again
                            D
Counting down the days, reading in between
    Em                      Am
To loving you and love you again
Am
Take it slow but I know
```

[Chorus]
