Mostly Water - Laurence Fox

Saw Mr Fox play this live in Scotland and it was fucking amazing.

Capo on 7 for album version.

Little melody part for the intro (Capo 7) sounds really nice picking if you add in the C chord bass notes, then the Em chord bass notes when it changes. Or you can just add this into the C and Em chords while strumming. Just make the chord shape then add and lift the B string fingers.

```
e|-----|
B|---1--1--1--3--1--0(h)1--0--0--0--0--3--1--0(h)1--0-----|
G|-----|
D|-----|
A|-----|
E|-----|
```

Here s the basic chords. Laurence adds and lifts fingers on the B string for variation and transitions.
