Standing In The Dark
Lawson

[Intro]

E F#m A E

[Verse 1]

E
Sitting here wide awake
Thinking about when I last saw you
F#m
Know you re not far away
Close my eyes and I still see you
A
Lying here next to me
                              E
Wearing nothing but a smile

E
Gotta leave right away
Counting cracks along the pavement
F#m
To see you face to face
Thinking about the conversation
A
I know I m not one to chase
                                E
I ve never wanted nothing more
                        F#m   **A**
As I walk up to your door

[Chorus]

E
Im standing in the dark
She s dancing on the table
G#m
I m looking through the glass
She s someone else s angel
A
It may sound stupid that I wanted you back
        E
But I wanted you back, girl
                              E
And now I m standing in the dark, dark, oh
Dark, dark, oh

F#m
Dark, dark, oh
                        A   **E**
Dark, dark, ohh, oohh

[Verse 2]

E
All I want to do is hide
But I can t stop myself from staring
F#m
Wishing his hands were mine
I can t stop myself from caring
A
And as he turns down the lights
                        E
I'm feeling paralysed
                              F#m
And as he looks into her eyes
        A
Oohh, yeah, alright

[Chorus]

E
Im standing in the dark
She s dancing on the table
G#m
I m looking through the glass
She s someone else s angel
A
It may sound stupid that I wanted you back
        E
But I wanted you back, girl
                                E
And now I m standing in the dark, dark, oh
Dark, dark, oh
F#m
Dark, dark, oh
                        A   **E**
Dark, dark, ohh, oohh

E
Im standing in the dark
She s dancing on the table
G#m
I m looking through the glass
She s someone else s angel
A
It may sound stupid that I wanted you back
        E

```
But I wanted you back, girl
                              E
And now I m standing in the dark, dark, oh
Dark, dark, oh
F#m
Dark, dark, oh
                    A           E
Dark, dark, ohh, oohh

[Outro]

                            E
And now Im standing in the daaaa-aaark
```
