

Standing In The Dark

Lawson

[Intro]

F Gm Bb F

[Verse 1]

F

Sitting here wide awake
Thinking about when I last saw you

Gm

Know you re not far away
Close my eyes and I still see you

Bb

Lying here next to me

F

Wearing nothing but a smile

F

Gotta leave right away
Counting cracks along the pavement

Gm

To see you face to face
Thinking about the conversation

Bb

I know I m not one to chase

F

I ve never wanted nothing more

Gm

Bb

As I walk up to your door

[Chorus]

F

Im standing in the dark
She s dancing on the table

Am

I m looking through the glass
She s someone else s angel

Bb

It may sound stupid that I wanted you back

F

But I wanted you back, girl

F

And now I m standing in the dark, dark, oh
Dark, dark, oh

Gm

Dark, dark, oh

Bb

F

Dark, dark, ooh, oohh

[Verse 2]

F

All I want to do is hide

But I can't stop myself from staring

Gm

Wishing his hands were mine

I can't stop myself from caring

Bb

And as he turns down the lights

F

I'm feeling paralysed

Gm

And as he looks into her eyes

Bb

Oohh, yeah, alright

[Chorus]

F

Im standing in the dark

She's dancing on the table

Am

I'm looking through the glass

She's someone else's angel

Bb

It may sound stupid that I wanted you back

F

But I wanted you back, girl

F

And now I'm standing in the dark, dark, oh

Dark, dark, oh

Gm

Dark, dark, oh

Bb

F

Dark, dark, ooh, oohh

F

Im standing in the dark

She's dancing on the table

Am

I'm looking through the glass

She's someone else's angel

Bb

It may sound stupid that I wanted you back

F

But I wanted you back, girl

F

And now I m standing in the dark, dark, oh
