

Standing In The Dark
Lawson

[Intro]

F# G#m B F#

[Verse 1]

F#

Sitting here wide awake
Thinking about when I last saw you

G#m

Know you re not far away
Close my eyes and I still see you

B

Lying here next to me

F#

Wearing nothing but a smile

F#

Gotta leave right away
Counting cracks along the pavement

G#m

To see you face to face
Thinking about the conversation

B

I know I m not one to chase

F#

I ve never wanted nothing more

G#m

B

As I walk up to your door

[Chorus]

F#

Im standing in the dark
She s dancing on the table

Bbm

I m looking through the glass
She s someone else s angel

B

It may sound stupid that I wanted you back

F#

But I wanted you back, girl

F#

And now I m standing in the dark, dark, oh
Dark, dark, oh

G#m

Dark, dark, oh

B

F#

Dark, dark, ooh, oohh

[Verse 2]

F#

All I want to do is hide

But I can't stop myself from staring

G#m

Wishing his hands were mine

I can't stop myself from caring

B

And as he turns down the lights

F#

I'm feeling paralysed

G#m

And as he looks into her eyes

B

Oohh, yeah, alright

[Chorus]

F#

Im standing in the dark

She's dancing on the table

Bbm

I'm looking through the glass

She's someone else's angel

B

It may sound stupid that I wanted you back

F#

But I wanted you back, girl

F#

And now I'm standing in the dark, dark, oh

Dark, dark, oh

G#m

Dark, dark, oh

B

F#

Dark, dark, ooh, oohh

F#

Im standing in the dark

She's dancing on the table

Bbm

I'm looking through the glass

She's someone else's angel

B

It may sound stupid that I wanted you back

F#

But I wanted you back, girl

F#

And now I m standing in the dark, dark, oh

Dark, dark, oh

G#m

Dark, dark, oh

B

F#

Dark, dark, ohh, oohh
