

I Can Change
LCD Soundsystem

There isn't actually guitar in this song, but if you'd like to play the chords and sing, here it is.

You should play the barre chords. It's easiest.

Ab

Tell me a line make it easy for me

Open your arms

C#

Dance with me until I feel all right

Ab

It's good in the dark, good in the dark

But into the lover's light

C#

Here comes another fight

(Same for all verses)

So ring the alarm, ring the alarm

Bore me and hold me and cling to my arm

Here it comes, here it comes

And what you're asking me now, disastrous now

Hoping and hoping and hoping

The feeling goes away

Chorus:

Ab

Never change, never change, never change, never change

Never change, never change, never change

C# **C#m** (If you want)

This is why I fell in love oooh

(Same for every chorus)

Never change, never change, never change, never change

Never change, never change, never change

That's just too up there in love with

(in loveeeee ...)

This is the time the very best time

So give me a line and take me hooome

Take me oveeeer

But dashing the hopes dashing the hopes
And smashing the pride
The morning s got you on the ropes .. ooh

And love is a murderer , love is a murderer
But if she calls you tonight
Everything is all right
Yeah, we knoooooow
And love is a curse shoved in a hearse
Love is an open book to a verse of your bad poetry
And this is coming from me

But I can change, I can change, I can change, I can change
I can change, I can change, I can change
If it helps you fall in love
(fall in looove)
(repeat)

Turn on the light make it easy for me
Fill the divide fumble in the kitchen
til it s right
What an awful sight

But there s love in your eyes
Love in your eyes , love in your eyes
But maybe that s your love of fights
All niiiiight!

And I can change, I can change, I can change, I can change
I can change, I can change, I can change
If it helps you fall in love
(in looove)

And I can change, I can change, I can change, I can change
I can change, I can change, I can change
If it helps you fall in love
(in looove)

And I can change, I can change, I can change, I can change
I can change, I can change, I can change
If it helps you feel real love
(real looove)

And I can change, I can change, I can change, I can change
I can change, I can change, I can change
If it helps you fall in love
(in looove)
(repeat)
