  C#
My heart is getting heavier
  C#                                                Bbm
Heavier than I ever thought it could
                 F#                                        C#
And for a while I believed that I was superman
                      G#
But I misunderstood
  C#
And you can chase me down cause you know how
  C#                                                Bbm
I want to feel like what we had was good
  F#
But now my heart is getting heavier
  C#                               G#
Heavier than I ever thought it should
  C#
With this empty space I canâ€™t replace
  C#                                         Bbm
The overwhelming merry of your face
  F#                                                    C#
And in this hall of empty picture frames I wish I never even knew
  F#
These halls of empty picture frames
  C#
You knew the heartache they could do
  F#
Halls of empty picture frames
  C#                                         G#
I wish I never even knew your name
  C#
Sleepless nights Iâ€™m terrified
  C#                                        Bbm
I wonder if Iâ€™ll ever leave this place
  F#                                          C#                      G#
But all they hear are wait my dear in case you ever need a place to stay
  C#
Well I know that this is just a song
  C#                                             Bbm
But maybe it will reach your ears someday
  F#                                        C#
We both know I fucked it up now suck it up
                                      G#
And live and learn to love another way
  C#
Oh well easier is said than done
  C#                                         Bbm
```

My heart is growing heavy anyway
 F#   **C#**
Well its better to have loved and lost
 C#   **G#**
At least thatâ€™s what the lonely people say
 C#
Well I feel alone I told you so
 C#   **Bbm**
And time and time again I let it go
 F#
But if youâ€™ve never had a broken heart
 C#   **G#**
Then thereâ€™s no way in hell youâ€™ll ever know
 C#
Oh my heart is getting heavier
 C#   **Bbm**
Heavier than I ever thought it could
 F#
Well my heart is getting heavier
 C#   **G#**
Heavier than I ever thought it should
 C#
Now my heart is getting heavier
 C#   **Bbm**
Now heavier than I ever thought it could
 F#
Well my heart is growing heavier
 C#   **G#**
Well than I ever thought it should
G#
Ever thought it should
 C#
Now my heart is getting heavier
 C#   **Bbm**
Heavier than I ever thought it could
 F#   **C#**
Oh for a while I believed that I was superman
                              G#
But I misunderstood
 C#
Well you chase me down cause you know how
 C#   **Bbm**
I want to feel like what we had was good
 F#
Now my heart is getting heavier
 C#   **G#**
Heavier than I ever thought it should
 G#
Ever thought it should
 C#
I feel alone I told you so
 C#   **Bbm**
And time and time again I let it go

But if you've never had a broken heart
 C#                                                                    G#
Then there's no way in hell you'll ever know
