Alright, this is my first tab, EVER. So if I got anything wrong, please let me know so I can learn from my mistakes. And we really need more Lee DeWye tabs, because it was just pure luck that I figured this out.

Intro: **G, C/G, Em/D, Gsus2**

G	C/G	Em/D
Under your bed, where you lie your head		
	Gsus2	
There s something waiting for you		
G	C/G	
An empty bedroom where you lie		
	Em/D	
And it s just too hard to try		
	Gsus2	
You ve done all you can do		

[CHORUS]

G	C/G
And under your cover	
	Em/D
That s where you ll find me	
	Gsus2
Waiting for you	
G	C/G
And I have discovered	
	Em/D
There s been another	
	Gsus2
If you ve been untrue	

G, C/G, Em/D, Gsus2

G **C/G**
And you speak without a word
Em/D
In a voice I've never heard
Gsus2
I wonder who you are
G **C/G**
And as the tears fall from your eyes
Em/D
It should come as no surprise
Gsus2
How did it get that far?

Chorus

G **C/G**
If I told you a thousand times
Em/D
There's probably a reason why
Gsus2
You're probably gonna cry
G **C/G**
And if I told you a thousand times
Em/D
There's probably a reason why
Gsus2
You're probably gonna cry

Chorus x 2

G **C/G**
If I told you a thousand times
Em/D
There's probably a reason why
Gsus2 **G**
Probably gonna cry, probably gonna cry
