

The Earth Song
Lee Evans

Well the Earth is a special place, it s the third rock from the Sun

G **A** **D**
If we are to preserve the human race, there s a few things that need to be done

G **A** **D**
And how could that be worse, as we spin around and around

G **A** **D**
But paradise in the universe expanding at the speed of sound

A **D**
La la, la la la la la la

E **A** **D**
La la, la la la la la la
