

Later on when the sun goes down an it s time for us to play

Chorus: (faster)

**G** **C** **A**  
Tires singing between white lines - now I know it won t be long

**G** **C** **A**  
Moment by moment the passing of time, just another highway song

**E**  
So many miles away from the one I need the most  
So many words I can t say, so far and yet so close  
Changing scenes outside thw windows link these two other lives  
Where we re headin I just don t know,  
I m just watching the world go by

Chorus

Solo: **A E A E**

**Bm** **A** **E**  
New emotions inside my mind left me wonderin where to turn

**Bm** **A** **E**  
Always lookin for a sign, crossing rivers while bridges burn

Chorus

**A** **E**  
I got some time - guess I ll just settle on in for the ride

**A** **E**  
Clearin my mind, reachin out through the inside

**E**  
Oh, oh, oh... Just another highway, just another highway
