

Dance Like An Idiot
Lemon Demon

I didn't write these, they are from <http://wiki.illemonati.com>.

Note: the version played at Lemonic Demonade is in A. Adjust accordingly if you wish.

VERSE (type 1):

Gm **Bb**
One cold December night back in 1984
Cm **Eb** **D**
A scientist had found himself upon the dance floor
Gm **Bb**
He started twitching and shaking like a pile of jumping beans
Cm **Eb** **D** **G**
At first it looked stupid, but the end justified the means

VERSE (type 2):

Gm **Bb** **F**
Well I know it's not generally considered very cool
Gm **Bb** **F**
To dance like a nitwit, to dance like a fool
Cm **Eb** **D** **G** **Bb** **F**
But now that's just a guideline, not a rule

CHORUS:

G **Bb** **C**
So get off the wall, stand proud and tall
Eb **D**
Get out there and dance like an idiot
G **Bb** **C**
You know it's all good, so rock the neighborhood
Eb **D**
Get out there and dance like an idiot
G Bb F (x2)
