

Geeks In Love
Lemon Demon

I didn't write these, they are from <http://wiki.illemonati.com>.

VERSE:

F#m **Faug** **D#m7-5** **D** **Bm**
Nobody's cool as we, nor quite as esoterically far out.

C#(bass F)C#
We're so far out it's creepy.

F#m **Faug** **D#m7-5** **D** **Bm**
I don't think they'll ever get the groovy standards that we set for love,

C#(bass F) C#
but they're not smart like we be.

F#m **C#**
They have no roses.

D **Bm** **F#m**
Subconsciously they envy us a lot.

C#
They look down their noses

D **E** **A**
And see a couple of dorks with more love than they have got.

CHORUS:

F#m **F** **Dm** **E** **A**
When they see us holding hands, they wish that they were geeks in love.

F#m **F** **C** **E** **A**
And when they hear our favorite bands, they wish that they were geeks in love.

F#m **F** **Dm** **E** **A**
We rattle off our in-jokes while they wish that they were geeks in love.

F#m **F** **C** **E** **A**
And while we make each other smile, they wish that they were geeks in
