

Sad Song

Lenka

**F# - Fm - C# Ebm - F# - G#**

**C# G#**  
Don t tell me you wanna be

**Bbm G#**  
The kind of girl who s drowning

**C# G# Bbm**  
And don t go holding on to anything  
**G#**

That s gonna keep you frowning, darling  
**Ebm**

Everyone s compelled to look into the mirror  
**Bbm**

When they re crying  
**Ebm**

Just because your tears are pretty  
**G#**

Doesn t mean they ll get you by

**C# F# G#**  
Sing me a sad song and make me feel better

**C# F# G#**  
Sing me a happy song and I might start to cry

**Ebm G#**  
Because everything feels like it s going around in circles

**Ebm G#**  
And everyone knows that the world is upside down

**C# G#**  
You were once a little baby

**Bbm G#**  
Full of optimistic wonder

**C# G#**  
So what got into you to make you think

**Bbm G#**  
That it could pull you under, honey

**Ebm**  
Could it be that we were under  
**Bbm**

The impression life was perfect?  
(La, la, la, la, la)

**Ebm**  
And when the bubble burst

**G#**  
We understood that every part of it hurts

**C# F# G#**

Sing me a sad song and make me feel better

**C# F# G#**

Sing me a happy song and I might start to cry

**Ebm G#**

Because everything feels like it s going around in circles

**Ebm G#**

And everyone knows that the world is upside down

**F# - Fm - C# Ebm - F# - G#**

**C# Ebm Fm F# G#**

I m going to color my glasses rose

**C# Ebm Fm F# G#**

And I m going to follow where the rainbow goes

**Ebm G#**

And my pot of gold will be waiting

**C# F# G#**

So sing me a sad song and make me feel better

**C# F# G#**

Sing me a happy song and I might start to cry

**Ebm G#**

Because everything feels like it s going around in circles

**Ebm G#**

And everyone knows that the world is upside down

**Ebm G# C#**

Yeah, everyone knows the world is upside down
