

## Sad Song

# Lenka

G - F#m - D      Em - G - A

**D** **A**  
Don t tell me you wanna be

**Bm** **A**  
The kind of girl who s drowning

**D** **A** **Bm**  
And don't go holding on to anything

**A**

That s gonna keep you frowning, darling

Em  
Everyone s compelled to look into the mirror

**Bm**  
When they re crying

**Em**  
Just because your tears are pretty

**A**  
Doesn't mean they'll get you by

**D** Sing me a sad song and make me feel better **G** **A**

**D                      G                      A**

Sing me a happy song and I might start to cry

Em A  
Because everything feels like it s going around in circles

Em A  
And everyone knows that the world is upside down

**D**

You were once a little baby

**A**

<b>Bm</b>	<b>A</b>
Full of optimistic wonder	

**D**

**A**

So what got into you to make you think

**Bm** **A**  
That it could pull you under, honey

**Em**  
Could it be that we were under

**Bm**

The impression life was perfect?  
(La, la, la, la, la)

**Em**  
And when the bubble burst

**A**

We understood that every part of it hurts

D G A

Sing me a sad song and make me feel better

**D G A**

Sing me a happy song and I might start to cry

**Em A**

Because everything feels like it s going around in circles

**Em A**

And everyone knows that the world is upside down

**G - F#m - D Em - G - A**

**D Em F#m G A**

I m going to color my glasses rose

**D Em F#m G A**

And I m going to follow where the rainbow goes

**Em A**

And my pot of gold will be waiting

**D G A**

So sing me a sad song and make me feel better

**D G A**

Sing me a happy song and I might start to cry

**Em A**

Because everything feels like it s going around in circles

**Em A**

And everyone knows that the world is upside down

**Em A D**

Yeah, everyone knows the world is upside down
