[Verse 1]

**Am**  
Run fast, run away  
**Em F**  
Run straight into the loneliness  
**C G**  
It isn't only home I miss  
**F Am**  
Like the night all my friends got together  
**Em F**  
I heard about it afterwards

Didn't think was gonna hurt so much  
**Am**  
Why if I am doing so well

Did I build a wall between me and the world

[Chorus]

**F G**  
Been drilled in my head forever  
**Em**

**F G Em**  
Turns out I'm just like everybody else  
**F G**  
Don't even go near a mirror  
**Em**  
It'll kill ya  
**F G Em**  
Trust me you don't wanna see yourself  
**F**  
Fuck the noise  
  
It's too late  
**G Em**  
It's the choices (ah)  
**F G Em**  
Now I don't even wanna be someone  
**F G**  
What made me think I was special

I'm not special

Turns out I'm like everybody else
