Martin Luther King, he had a vision
And thatâ€™s a fact
Am7 **Dm** **Am7**
He died so we could see that was his mission
So donâ€™t look back

C **Bm**
There is no division, donâ€™t you understand
Am7 **Dm**
The future looks as though it has come around
C **Bm**
And maybe we have finally found our common ground
 Am7
Weâ€™re the children of one father
 Dm
If youâ€™re looking back donâ€™t bother
 C **Bm**
Weâ€™re black and white America

(CHORDS LIKE ABOVE)

In nineteen sixty three my father married
A black woman
And when they walked the street they were in danger
Look what youâ€™ve done

But they just kept on walking forward hand in hand

The future looks as though it has come around
And maybe we have finally found our common ground
Weâ€™re the children of one father
If youâ€™re looking back donâ€™t bother
Weâ€™re black and white America

The future looks as though it has come around
And maybe we have finally found our common ground
Weâ€™re the children of one father
If youâ€™re looking back donâ€™t bother
Weâ€™re black and white America
