

If I Could Fall In Love  
Lenny Kravitz

Intro: (**Am G F E**) x 2

**Am**

When I was young

**G**

I fell in love

**F**

She was a goddess

**E**

With a world inside of her mind

**Am**

When she moved on

Something went wrong

She took my power

**E**

And the love I had inside

**F**

Now that I found you

**E**

I don't know how to

**Am**            **G#**

If I could fall

**G**            **F#**

In love again

**Am**            **G#**            **G**            **F#**

I'd fall in love with you

**Am**            **G#**

If I could change

**G**            **F#**

A grain of sand

**Am**            **G#**            **G**            **F#**

Into a pearl, I would

I pray in time

**G**

I'll come to find

Away to break through

And save this heart of mine
