

Sugar

Lenny Kravitz

The song is pretty simple, although you ll need two guitars to pull off the intro and chorus bits properly. The chords shouldn t pose any difficulties, so try to find the correct strumming pattern (I ve tried to sketch it out for you). The solo is real simple, but cool and fun to play. I ve included the order of the parts in the song at the bottom of the tab...

I m sorry bout the fact that I haven t managed to figure out the underlying chords for the solo yet. If you can hear them please mail those suckers to me together with any other corrections or comments you might have...
