F **F/E** **Dm** **Am** **Am7**
I m lost in the night The icy wind is howling out your name
Bb7 **C** **C7**
and desolation lingers like a fog And the fires growing dimmer in the wind

I m out in the rain The moon has gone behind the cloud again
Bb7 **C7** **F**
And I can t stand to live another day cause my bluebird went away

Am7 **Dm** **Bb7**
And I m lost in this room with my sorrow, No escape, no way to get away
Am7 **Dm** **Bb7** **Am7**
And my only connection with tomorrow is hoping that you might decide

not to stay away

Can t find my blue bird anywhere, anywhere

Oooh--ooh--ooh, etc.

Play F/E as a bar chord F with the 6th string uncovered and hammer on the open bass note E string.

The F chord before the F/E should be played as a full bar chord (with an F bass note).
