Lady Blue Leon Russell

Lady Blue by Leon Russell from Will O The Wisp Submitted by Bendave cbennett35@nc.rr.com

In listening to the record, I think this version is in the right key. You may find it easier to play by using the transpose function to get to any easier set of chords.

FYI; I m not sure of some of these chords. The song is really challenging. Not many simple major or minor chords, for sure.
