

Alive

Leona Lewis

obs: essa música também é conhecida como Drive

*(**D# B F# C#**)

D#

I breathe, I hear

B

But I don't believe it

F#

My heart, it beats

C#

But inside I'm freezing

D#

My hands shake

B

They've lost all their feeling

F#

Nowhere to take

C#

You say that you're leaving

B

And there's no turning back this time

D#

Gotta stay alive

B(7th fret)

F#

Where do I go when I'm so alone?

C#

D#

Where do I turn when you are so close?

B(7th fret)

F#

We try not to crash but we still collide

C#

Tears I've cried, I'll survive

D#

I'm alive

I'm stripped, I'm bare

I'm left here with nothing

I hold the wheel

And know where I'm going

Your face, I see, in every reflection

No time, no space

I've lost all direction

And there's no turning back this time

Gotta stay alive

C#

I m gonna get there someway

B

Through all the tears that you bring

C#

And any road I can take

B

Just to get me some place

C#

Where all the stars on my heart

B

And all the lies in the dark

C#

B

Disappear in my head

Lights so bright, tonight

D#

Gonna drive them away

I m Alive
