

**Fireflies**

**Leona Lewis**

**C#**

If I could only see this night as another day,

I d know you found your silence,

**F#**

Instead of being wrapped up in me,

**C#**

Wrapped up in this violence.

**C#**

I ll make floating on water,

Looking out of the night.

**F#**

There s a hole in the sky,

**C#**

All those fireflies,

**C#**

Don t believe in the sun,

**F#**

Or the nighttime s scarce,

**C#**

They re only fireflies.

**C#**

Took a walk out the door,

On the day you would die,

**F#**

**C#**

And I looked up to the sun,

And I saw fireflies.

**C#**

And now I can t see no border,

Between the day and the night.

**F#**

**C#**

You would turn on your life between those fireflies.
