

Stop The Clocks

Leona Lewis

B **F#**
Sitting on the car
E
Staring at the stars
C#m
Leaning on your shoulder

B **F#**
I wanna cry until I laugh and laugh until I cry
E **C#m**
Don t wanna let a single moment of you pass me by
If only I could freeze the frame
You know that I would stay right here for good

B **F#**
I I wanna stop the clocks tonight
E
I I wanna tear the hands right off
C#m
I I wanna stop the world from turning
And stay right here for good
I I hope the sun forgets to rise
I I won t ever leave your side
I I wanna stop the clocks tonight
And stay right here for good

I d rather spend my life
Motionless with you
Than dancing with another

I wanna cry until I laugh and laugh until I cry
Don t wanna let a single moment of you pass me by
If only I could freeze the frame
You know that I would stay right here for good

I I wanna stop the clocks tonight
I I wanna tear the hands right off
I I wanna stop the world from turning
And stay right here for good
I I hope the sun forgets to rise
I I won t ever leave your side
I I wanna stop the clocks tonight
And stay right here for good

For good

Stay

I I wanna stop the clocks tonight
I I wanna tear the hands right off
I I wanna stop the world from turning
And stay right here for good
I I hope the sun forgets to rise
I I won t ever leave your side
I I wanna stop the clocks tonight
And stay right here for good

I I wanna stop the clocks tonight
I I wanna tear the hands right off
I I wanna stop the world from turning
