Standard tuning

B/Eb - 769900
Bsus - 799977 or 224452

Intro: **E** - **Bsus** - **F#m** - **A**

```
e|-------------------------------------------|
B|----------------------------9--------------|
G|--11--9-----11--9-----11--9--------9--------|
D|--------9---------9---------9-------9-------|
A|-------------------------------------------|
E|-------------------------------------------|
```

Verse:
E
I can read the lines
        B/Eb
On your face

And they€™re telling me
F#m   **A**
Everything I already know

Yeah
   E
I hold you in my arms
         B/Eb
But your light-years away from me
F#m
Slowly sinking
            A
Under alone

Yeah

Prechorus:
     C#m B
So I act cool
        A

On the outside
```
        C#m     B
```
But it’s eating me
```
  A
```
Alive

Chorus:
```
                      E
```
Cuz when it comes to you
```
                        B
```
There’s nothing I can do
```
               F#m
```
I can’t make you love me
```
          A
```
When you don’t
```
                  E
```
I see it in your eyes
```
                B
```
All the compromise
```
               F#m
```
I can’t take another
```
           A
```
Slow goodbye

Verse:
```
E
```
Sitting in the park
```
        B/Eb
```
After dark

Smoking cigarettes
```
F#m                      A
```
Biting on the black of my nails
```
     E
```
Cuz all I ever wanted
```
           B/Eb
```
Was what you took away from me
```
F#m
```
Trying to make it right
```
            A
```
But it’s too late

Prechorus:
```
        C#m         B
```
I’m a hopeless case
```
          A
```
On the inside
```
          C#m     B
```
And it’s eating me
```
  A
```

Alive

Chorus:
```
                        E
Cuz when it comes to you
                           B
Thereâ€™s nothing I can do
                F#m
I canâ€™t make you love me
          A
When you donâ€™t
                    E
I see it in your eyes
                  B
All the compromise
                F#m
I canâ€™t take another
          A
Slow goodbye
```

Bridge:
```
C#m   G#m
I     die
          A
A million times
                    E
Every time when you
                  C#m
Look me in the eye
G#m
Die
          A                   E
Cuz Iâ€™ve heard it all before
     C#m   G#m
The same game
        A
Going around and around
     E                    A
But I still end up with nothing
     A - B
But hurting
```

Interlude: **E** - **Bsus** - **F#m** - **A**

```
e|-----------------------------------------------|
B|--------------------------------9--------------|
G|--11--9-----11--9-----11--9--------9-----------|
D|--------9---------9---------9--------9--------|
A|-----------------------------------------------|
E|-----------------------------------------------|
```

Chorus/Outro:
```
                           E
Cuz when it comes to you
                              B
Thereâ€™s nothing I can do
                   F#m
I canâ€™t make you love me
            A
When you donâ€™t
                      E
I see it in your eyes
                   B
All the compromise
                  F#m
I canâ€™t take another
          A
Slow goodbye

E
Yeah
                               B
Thereâ€™s nothing I can do
                   F#m
I canâ€™t make you love me
            A
When you donâ€™t
                      E
I see it in your eyes
                   B
All the compromise
                  F#m
I canâ€™t take another
          A                    E
Slow goodbye

End on E
```
