Less Than Jake

There are no tabs for this, why? This is an amazing song by ltj (even if most of ltj s songs are amazing here it is anyway. Asuming you know simple chords I won t bother to but them down. Some of the chords are ska chords which means you play the last few notes of them this is correct.

Intro/ Chorus (most of the intro is muted but the chorus is not and you don t play the ska chord F in the chorus)

Muted: **C** **G** **A#** **F**
Somethings out there and it takes me away to a world to small, to small to stay

C **G** **A#** Fska chord
Somethings out there ere ere_____ Somethings out there_____

x2

C (play a few times so work out the rythme)

Verse

G **F** **C** **Am** **C**
Another day in this place so small, I d rather be somebody else,

G **F** **C** **A** **C**
Maybe if my mind wasen t so tall, I wouldn t be able to tell,

Bridge

F **G** **Dm** **F**
And I ve walked these streets, it seems like 10 million times,

F **G** **Dm** **F**
and I ve seen these things up and leave time after time

F **G** **C** **G** **F**
I d rather be somebody, bad habits, old habits so many Die hard

Second verse

This is exactly the same as the first verse but with ska chords instead of power chords.
