Promises
Less Than Three

PROMISES by Less Than Three

VERSE:
```
A                     E
 I ve been trying to put this words
 D          E
 far too long
A                         E           D E
 Because the words seem to never get along

A                    E
 Press my pen to the paper for the
 D               E
 better words I lack
A                         E
  Cause every time there on the tip of my tongue
   D                   A
 I hesitate and take them back
```

CHORUS:
```
F#m        E                  D
 For every promise there s a promise broken
        F#m           E               D
 and with everything I say there s a desire to catch your ear
A                    E
 Every breath that I take without you
    F#m          E        D
 is a breath that s wasted, breath that s wasted and
A              E
 Every moment without you here is
  F#m          E        D
 a moment that I long to hold you near
```
