

**My Arms Dont Bend That Way Damn It
Let's Wrestle**

Let s Wrestle - My Arms Don t Bend That Way Damn it

Tone-wise I play on a single coils Strat on the bridge to get it as bright as possible, use wah and overdrive at the intro and a fairly transparent overdrive setting on the chorus.

I ve done my best to show where the chord changes are but its just best to listen and get a feel for it yourself!

This is covered by Cage The Elephant so the tab is already online but I figured it would be useful for the original to be here to, plus it was good tabbing practice! Enjoy
