

**Men-an-tol  
Levellers**

My favourite levs song,  
Its not exactly like the record, but then the levs play it differently every  
time.

Just play it and see how it sounds.

The open strings and ( ) are mostly incidental and not part of the tune

the 5/4 bar exists in some live performances,  
whether it was intentional i don t know,  
but i like it. so i play it in everytime

[Use a riff sim to intro for verse]

There s hammers and Pullofts partic. at the end of lines which are fairly easy to work out.
