Intro

**A A C G A A C G**  
**Am Am C G C G**

**Am C**

In the life in front of you and me

**Am F**

Seems there is no logic, no place that you must be

**Am C**

And there are times that it gets so hard to see

**Am F**

To find the valid reasons for the things that come to be

**Am C**

But you must try to set your spirit free

**Am F**

You know you cannot hide from spiritual disease

**E F**

And it seems you cannot please the present company

*Chorus :*

**Am C Am G**

Who could claim to know the answers

**Am C F G**

It s just the way that we re all meant to be

**Am C**

Love is stronger in survivors

**E G F**

Survivors follow destiny

**Am C**

If you like we could go down to the sea

**Am F**

We could watch the evening tide and, get the boat to Honalee

**Am C**

Or we could fly above the dark city

**Am F**

Gettin higher in the sky with every breath you breathe

**Am C**

And if you cry about the things you leave

**Am F**

It s you you should be asking, about what you really need

**E F**

And you know it is no lie for it only takes belief

*Chorus*
