

Slow

Liam Payne

[Verse 1]

C **Dm**
Though this is done, I will turn a blind eye
Am **F**
Don't tell me goodnight, cause it means goodbye

[Pre-Chorus]

C **Dm**
Know, that we're broken
Am **F**
Know, this was over months ago, months ago
C **Dm**
Got me pretendin' you ain't done with us
Am **F**
It got me runnin' round the obvious
Dm **C**
Yeah, baby, why you gotta rush?

[Chorus]

C **Dm**
If you gonna let me down, let me down slow
Am **F**
Tell me what I already, already know
C **Dm**
I know that your mind's already made up
Am **F**
But give me one more night now before we give up
C **Dm**
If you gonna let me down, let me down slow
Am **F**
Just another minute, I ain't ready to go
Dm **C** **F**
Before we let the light in, baby, just hold me like you don't know
N.C.
That you're gonna let me down, let me down slow

[Interlude]

Dm Am F C Dm Am F

[Verse 2]

C **Dm**
Let's leave it unsaid, just one more second
Am **F**

If you don't say it, then it ain't true yet

[Pre-Chorus]

C **Dm**
Know, that we're broken
Am **F**
Know, this was over months ago, months ago
C **Dm**
Got me pretendin' you ain't done with us
Am **F**
It got me runnin' round the obvious
Dm **C**
Yeah, baby, why you gotta rush?

[Chorus]

C **Dm**
If you gonna let me down, let me down slow
Am **F**
Tell me what I already, already know
C **Dm**
I know that your mind's already made up
Am **F**
But give me one more night now before we give up
C **Dm**
If you gonna let me down, let me down slow
Am **F**
Just another minute, I ain't ready to go
Dm **C** **F**
Before we let the light in, baby, just hold me like you don't know
N.C.
That you're gonna let me down, let me down slow

[Post-Chorus]

Dm Am F C Dm Am F **C**
Let me down, let me down slow
Dm Am F C Dm Am F

[Bridge]

C **Dm**
So let me down, let me down slow
Am **F**
Why you gotta rush, when I already know
C **Dm**
That your mind's already made up
Am **F**
And I know you wanna give up
C **Dm**
So before you let me down, let me down slow
Am **F**
Give it one more minute, cause I don't wanna go
