

Heroin Dreams
Life of Agony

E **A**
And it was never enough
E **A**
And it was never enough now
E **A**
That heroin stuff
E **A**
Traveling through Daddy s arm now

E **A**
Cuffed in that junk who knows if I would survive
E **A**
Once you start shooting, forget living life
E **A**
Lost in your shadows, no soul, no backbone
E **A**
Sucked in, locked down, spinning breakdown, heroin whores

E **D** **A**
Everybody s talking about heroin dreams...
E **D** **A**
What the fuck you gonna do with the rest of your life?

E **A**
Scream at me, back slap me, chew off my ears
E **A**
And I can t stop this sickness, I ve been trying for years
E **A**
Deeper and deeper lies, sensational fears
E **A**
They re here just to guide you as we age through the years

E **D** **A**
Everybody s talking about heroin dreams...
E **D** **A**
What the fuck you gonna do with the rest of your life?
E **D** **A**
What the fuck you ganne do with the rest of your time?

E **D** **A**
I m lost in your shadows...
